**COMMUNICATION UNDER 37 C.F.R. §1.312
(AFTER ALLOWANCE), INCLUDING
COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Sir:

This Communication is submitted under 37 C.F.R. §1.312 after allowance of the above-identified patent application. Applicants respectfully request consideration of the following comments on the Examiner's statement of reasons for allowance, and clarification regarding the same. Also, Applicants respectfully request consideration of the references listed on and enclosed with the Supplemental Information Disclosure Statement filed herewith.

Comments on Statement of Reasons for Allowance

In the Notice of Allowability accompanying the Notice of Allowance and Fee(s) Due mailed February 3, 2003, the Examiner's Amendment appears to include a

typographical error, in which the word “no” was inadvertently omitted (at the point indicated with [sic: no], below):

WO 96/15576 to Zanzucchi *et al.* discloses both a microfluidic manifold distributing fluids into the microcomponents. However, there is [sic: no] motivation to modify the microfluidic manifold, such that the distribution channel has a flow conductance that is substantially the same for each of the flow paths between the common port and each of the terminal ports.

(See paragraph 2, at page 3). Clarification is respectfully requested.

Information Disclosure Statement

As discussed in a phone conversation with Examiner Quan on March 23, 2004, the references listed on the Supplemental Information Disclosure Statement filed herewith were originally listed on previously-submitted PTO-1449 forms indicated as being received at the US PTO on June 7, 2002 and on August 29, 2002 (copies of which are attached hereto). As seen on the attached copies, references were not provided with the original Information Disclosure Statement submission since, in accordance with 37 C.F.R. §1.98(d), the references were already of record in the parent application. Despite having being properly disclosed to the Office, some of the listed references were crossed out on the PTO-1449 forms, without explanation.

In as much as the Information Disclosure Statements listing these references were timely and appropriately submitted during prosecution of the above-identified patent application, and in as much as these references, considered alone or in combination with the other art of record, do not raise any new issues relating to patentability, Applicants respectfully request that (i) these references be considered before issue of the patent application, (ii) an Examiner's statement be made on the record indicating that the references were considered, and (iii) the references be listed on the issued patent.

Applicants believe that no further fees are required in connection with this communication under 37 C.F.R. §1.312. If necessary, however, the Examiner is hereby authorized to charge any other necessary and required fees to Deposit Account No. 50-0496.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Paul A. Stone". The signature is fluid and cursive, with the first name "Paul" being the most prominent.
